

GEORGIA SENATE

REPUBLICANS

Statement Regarding the Indefinite Caucus Suspension of Senator Colton Moore

Despite the fact that 32 of 33 Republican State Senators, the Governor, Lt. Governor, Speaker of the House, and the Chairman of the Georgia Republican Party agree that a Special Session to take action against the Fulton County District Attorney is impossible, Senator Moore has a right to his opinion. However, during his advocacy for his ill-conceived proposal, Senator Moore has knowingly misled people across Georgia and our nation, causing unnecessary tension and hostility, while putting his Caucus colleagues and their families at risk of personal harm.

Furthermore, Senator Moore was informed that he has violated multiple Caucus Rules on multiple occasions and was given every opportunity to simply adhere to the Rules going forward, not to abandon his wrongheaded policy position. Unfortunately, he has refused and was suspended by Leadership from participating in the Caucus until he agrees to abide by the Rules which he voted for at the beginning of his term.

This decision simply impacts Senator Moore's ability to caucus with his fellow Senate Republicans. It does not preclude him from representing the constituents of Senate District 53 as a duly elected State Senator while participating in official Senate business.

The Majority Caucus understands that we are stronger when unified and hopes Senator Moore will rejoin us in the future as we continue delivering winning conservative policy solutions for our state.
